SELECTION PROCESS

The Coordinator previews the electronic applications and the requested documents. All applications that are considered eligible are forwarded to both the Home and Host Universities. Home and Host Universities further assess the eligibility of applicants. Home and Host Universities further assess the eligibility of applicants and take into consideration the applicants belonging to the ethnic minority or being a disabled or economically challenged applicant.

- The proposed mobility fits into the subject fields of MID
- Study motivation
- Study plan
- Language skills
- Gender balance is respected.

The Selection Committee, chaired by a representative of the University of Turku, consists of one representative from each Partner University. The Selection Committee makes the final nomination within each category and mobility flow, based on the following administrative and academic criteria:

- Host University is willing to accept the applicant for the time s/he has applied for or can suggest another time for mobility. Rejections are justified based on academic reasons (e.g. language requirements, eligibility to attend the selected courses, places available);
- Overall equal geographical presentation of Host/Home Universities in the mobility scheme as a whole;
- Relevance of the mobility to both Home and Host University (reviewed by these institutions, preference given by the applicant);
